Education:

Stony Brook University *Sept. 2018 - Present*
-Cumulative GPA: 3.15
-Bachelor of Science, Information Systems Major | May. 2022

Experience:

SBUHacks 2019 *2019 Summer*
-Front-end developer for the Hackathon website using **HTML**, **CSS**, and **JavaScript** with the help of an artist. | <https://sbuhacks.org/>

High School Robotics Team *Sept. 2014 - June. 2018*
-Initially a member of the programming team later became the team captain.
-Gained valuable experience leading my team where we coded the robot in **Java**.
-Placed 6th place in the 2017 FRC *New York City Regionals*.

NY Metro Startup Tech Summer *2017 Summer*
-Worked with a team of 5 and mentors from *AppNexus* to create the startup app *H!School* which helps middle schoolers find the right high school by showing their compatibility with schools nearby.
-Made using the **Ionic** Framework using web technologies to create a mobile app where it was presented in front of a team of judges along with our business plan.

Projects:

Stackotaire
-A desktop Solitaire clone but played in a console using text commands.
-Made with **Java** using stacks to practice data structures.

PianoSim
-A responsive website with a virtual piano that you can play, record, and playback what you played. As well as downloading what you recorded as a Mp3 file.
-Made using **HTML**, **CSS**, **JavaScript** with SASS and the MediaRecorder API.

Personal Website
-A responsive website made to showcase my projects. (Currently in development)
-Made with pure **HTML**, **CSS**, **JavaScript**.
-Includes a day/night mode toggle. | winstongong.netlify.com

Skills:

Languages:
Java, HTML, CSS, JavaScript, SQL, Python
